

DR. CANDACE G. WALTERS, DDS

This dental practice is located at 899 N. Wilmot Road in the San Rafael Plaza. Originally a 1300 square foot suite, we were tasked to add on and build a fully operational 2400 square foot dental suite. The 1100 square foot addition was designed to match the existing complex and buildings. The existing interior was gutted and re-designed to include ten patient exam chairs, a financial office, the doctors office, a break room, waiting areas for children and adults, a treatment coordinator office, reception area, mechanical room, a sterilization lab, a panoramic X-ray, a dark room, and a lab.

While this is for the most part a typical working dental office one prominent feature includes the design of a radial reception desk with matching ceiling soffit above. Schneider & Associates performed structural engineering while all other engineering was performed in-house.
